Experience

Red Ventures - *Front End Developer*
Worked on several large brand websites including American Express, Bankrate, The Simple Dollar, and Frontier. Large emphasis on JavaScript, Vue.js, and modern web practices.
Spring 2017 - Current Role

Lampros Labs - *Front End Developer + UI Designer*
Worked with various startups and small businesses to develop websites, apps, and WordPress Themes. Designed logos, web page layouts, e-mails, and mobile UI. Personally met with clients through development stages.
Summer 2015 - Spring 2017

Keithley Instruments - *Firmware Engineer + Graphic Designer*
Helped develop a new touch screen device using C++.
Tasks included: creating an embedded web application, programming Excel macros, and designing part of the UI.
Winter 2014 - Winter 2015

Freelance / Contract Work - *Web Developer + Graphic Designer*
Created complete websites, WordPress themes, logos, videos, and print designs for over a dozen different businesses and local organizations.
Spring 2013 - Fall 2017 (Part Time)

Education

University of Cincinnati
Major: Computer Science
